per share for 25,000 shares of 5% cumulative convertible preferred stock (par \$20), at the rate of one share of such preferred stock for each two shares of common stock so held. Rights expire Aug. 31.

At any time until surrendered for cancellation such preferred stock may be converted into common stock by surrendering in multiples of three shares, each three shares so surrendered entitling the holder to four common shares.

Arrangements have been made with one of the larger stockholders for surrender free of charge of warrants for enough shares to take care of all shares subscribed in excess of 25,000, if such should occur by virtue of each warrant being issued for the next highest full share to which a stockholder would be entitled and assuming that all warrant holders subscribed in full.

In connection with the subscription rights, arrangements have been made whereby subscribers may, in addition to their subscriptions evidenced by the warrants, subscribe, subject to allotment, for additional shares of such 5% cumulative convertible preferred stock out of any such 25,000 shares of such preferred stock offered as are not purchased and paid for pursuant to the warrants.

Republic Insurance Co. (Texas) has entered into a contract with the company whereby upon approval of the preferred stock as to its legality by counsel for both companies, it will purchase all or any part of the unsubscribed and unsold portion of the offering up to and including 18,750 shares of a par value of \$375,000.

All shares not sold to the stockholders and to Republic Insurance Co. will be offered to all of the security dealers in Dallas, Texas, who are members of the National Association of Security Dealers and as to stock sold through such dealers the commission will be 50c. per share.

The application of the proceeds of the sale of the preferred stock

are members of the National Association of Security Designs and to stock sold through such dealers the commission will be 50c. per share.

In other words, either \$375,000 in cash will be paid to Republic Insurance Co. or \$375,000 in preferred stock will be delivered to it for the surrender of the debenture, or in certain circumstances, both cash and stock might be delivered; (2) The balance of the proceeds above the \$375,000 will be added to the operating capital or used to pay short-term bank notes or otherwise used in the business of the company for making loans.

Commonwealth & Southern Corp.—SEC Approves Plan to Transfer Operating Utilities-

The SEC has conditionally approved corporation's plan to transfer its interest in four southern operating utilities and in a non-utility subsidiary, to the Southern Co., a holding company organized for that

The Commission also directed that C. & S. cut its relation with all

The Commission also directed that C. & S. cut its relation with all companies other than a mutual service company, the Southern Co. and the companies to be transferred to Southern.

On July 31, in anticipation of this approval, C. & S. filed a new plan with the Commission for ultimate dissolution, providing for distribution of certain portfolio securities in retirement of its preferred stock and distribution of its remaining assets, including shares in the Southern Co. to its common stockholders.

The companies to be transferred to the Southern Co. are Alabama Power Co., Georgia Power Co., Gulf Power Co. and Mississippi Power Co., all operating subsidiaries, and Savannah River Electric Co., a non-atility subsidiary.

In conjunction with the plan, and as a condition to its approval, C. & S. agreed to dispose of its direct or indirect interests in gas and transportation properties of Alabama Power, Georgia Power and Gulf Power. Since this agreement was made, the Commission's findings stated, the gas properties of Alabama Power have been disposed of. Disposition of the remaining gas and transportation properties was directed in the order.

C. & S. also agreed to dispose of its interests in all subsidiaries other than the five companies and to dispose of any remaining interest in Southern as soon as possible after retirement of its preferred stock. In approving the plan, the Commission concluded the electric properties of the four southern operating companies were retainable under common control as an integrated public utility system along standards of the Holding Company Act, and that the continued existence of Southern as a holding company over the retainable properties was appropriate.

In addition to securities of the five companies, the plan provides for

In addition to securities of the five companies, the plan provides for transfer of \$3,000,000 in cash by C. & S. to the Southern Co. for all this the Southern Co. will issue 10,000,000 shares (\$5 par) common stock to C. & S.

A primary purpose of the plan, it was stated, is to group the four southern operating companies and to provide a means for raising equity capital.

Justice Eder on May 12 approved an agreement settling three suits brought by minority stockholders of Creole against Lago Petroleum Corp. and Standard Oil Co. (New Jersey). The settlement provided for the return by Standard Oil of 750,000 of the 19,632,254 snares of Creole stock which Creole paid to Lago for the 'transfer of all Lago's Venezuelan assets to Creole in 1943.

Va rious creditors are understood to be in agreement on the modified recapitalization plan for the company's properties. This is the plant formulated by the ICC last June. Claims are to be computed as of Jan. 1, 1945, the effective date of the plan. Public holders of first 5s are to receive for each \$1,000 bond, \$600 in new 50-year first mortage income 4s and \$125.45 in cash, or a total of \$725.45. Canadian Pacific Ry. is to receive for each \$1,000 principal amount of its holdings of the bonds \$43.83 in cash, \$162.88 in new 50-year first income 4s and \$555.48 in new common stock (\$50 stated value) or a total of \$762.19.—V. 166, p. 465.

Dow Chemical Co. (Del.)—50th Annual Report—Willard H. Dow, President, on Aug. 4 said in part::

of \$762.19.-V. 166, p. 465.

Sales for the year ended May 31, 1947, reached a new all-time high of \$130,426,839. This is 28% more than the sales of \$101,813,839 attained last year, and 4.5% more than the peak sales of \$124,570,200 for the 1945 fiscal year.

for the 1945 fiscal year.

As of July 1, 1947 there were 8,249 common stockholders and 4,366 preferred stockholders. This is an increase of 63% over five years ago, with an average ownership of 151 shares per common stock owner and 70 shares for each preferred stock owner.

During tthe year we spent over \$84,000,000 in capital expenditures, of which approximately one-half was for the purpose of certain facilities we had constructed for the government at Velasco near Preeport, Texas. This amount of expenditures made it necessary for us to raise additional funds. We did this by selling \$30,000,000 of 2,35% debentures, by borrowing \$35,000,000 from an insurance company upon an unsecured note at an interest rate of 2.70% a year and by a sale which has just been consummated of 400,000 shares of our new second preferred stock. In addition, we have arranged for a bank credit under which we may borrow up to \$25,000,000 at an interest rate of 1.5% a year, to become due not later than May 34, 1949.

During the year a new wholly owned subsidiary, Brazes Oil & Gas Co., was incorporated in Texas for the primary purpose of producing gas from a gas field recently purchased in Texas. This field, located

in Matagorda County and known as Citrus Grove Field, can be readily

joined to existing company-owned pipe lines and should supply up to 20,000,000 cubic feet of gas per day for a period of 10 or more years. The Saran Yarns Co. was organized and is owned jointly by The Dow Chemical Co. and The National Plastic Products Co. It will manufacture fine fibres out of Saran. first step in acquiring the Longchamps chain of nine restaurants in New York City. Ownership will be divided equally between the two groups.

This was made known on Aug. 6 by officials of Exchange Buffet immediately after the New York State Liquor Authority announced that a restaurant liquor license had been granted Fornow Corp. for the operation of the Longchamps restaurants. Fornow Corp. of which Theodore T. Mets is President, has been operating the chain of restaurants since last month, and is reported to be owned jointly by Exchange Buffet Corp. and Valley Trust Co.

A prerequisite to the issuance of the liquor l'cense was the payment of approximately \$3,000,000 due the Federal Government by Henry Lustig, former owner of Longchamps. This payment was made on Aug. 7 by the new owners.

Exchange Buffet officials stated they propose to form a new corporation, Longchamps Restaurants, Inc., which will own the restaurant chain. The new corporation will issue 500,000 shares of stock, \$1 par value, half of which will be owned by the "other interests" and the other half initially owned by Exchange Buffet Corp.

"It is anticipated that the directors of Exchange Buffet will declare a dividend of one share of the new Longchamps stock for each share of Exchange Buffet stock held," company officials stated. "This dividend will be paid in place of the regular quarterly dividend of 15 cents, normally paid in September.

"If legal technicalies are completed, we hope it will be payable Oct. 15 to stockholders of record Oct. 1. These dates may be advanced," officials sad.

After the distribution of the Longchamps stock takes place, Exchange Buffet will not own any stock in Longchamps and the management of the two companies will be independent of each other. Details of the acquisition of Longchamps restaurants came following the annual meeting of stockholders of exchange Buffet Corp., on Aug. 6. It was not disclosed what the price was for the Longchamps restaurants and other business of the old company were owned by five corpor

International Hydro-Electric System-Plans to Pay Off 30% of Its Outstanding Debentures-

The payment of \$7,790,400, or 30% on the principal amount of outstanding debentures is proposed by Bartholomew A. Brickley, trustee, in a petition filed with the Federal District Court at Boston, Mass.

The trustee said the payment, if approved, is not expected to be made before Oct. 1, 1947. The Court has set Sept. 16 for hearing the petition

The trustee, according to the petition, is presently engaged in the preparation of and intends to file shortly a plan for the liquidation and dissolution of the company in compliance with an order of the Securities and Exchange Commission. Pending completion of the plan and final approval by the S.E.C. and the District Court at Boston, the trustee said he deems it advisable to pay \$7,790,400 of the principal amount of outstanding debentures and to reduce the future interest accruals. A petition has been filed seeking S.E.C. approval of the proposed payment.

A petition also has been filed with the Court seeking approach for the proposed payment.

A petition also has been filed with the Court seeking approval for payment of the Oct. 1, 1947 semi-annual interest on the debentures in the amount of \$797,040, or 3%. Hearing on this petition will also be held Sept. 16.

Preferred Stockholders Committee Seeks Dissolution-Headed by C. Shelby Carter, a protective committee for the preferred stockholders on Aug. 1 proposed to the SEC the immediate dissolution

The plan provides that each holder of Hydro-Electric's class A shares be given three negotiable warrants good for 20 days, providing the holder the right to purchase for each 100 shares of class A stock the following shares of subsidiary companies: 150 common shares of Gatineau Power Co., at \$15 a share; 50 common shares of New England Electric System for \$14 each, and 30 shares of Eastern New York Power Corp., at \$20 each.

The cash realized through exercise of warrants then could be applied by Hydro-Electric toward retirement of its outstanding debentures at par plus accrued interest. Total claims of the debentures, including interest to Oct. 15, 1947, is \$27,431,460, the committee said.

The committee also proposed that approximately \$10,000,000 cash which Hydro-Electric received in settlement of its claims against International Paper Co. be distributed to the debenture holders as promptly as possible.—V. 166, p. 269.

Jefferson Hotel Co., St. Louis, Mo.—Refinancing Plans

Company is calling a special meeting of common stockholders for Aug. 12 to authorize a new first mortgage bond issue of \$1,600,000 20-year maturity, of which \$1,300,000 would be issued in the near future to refinance the present first mortgage issue of \$1,300,000. The new issue would be 3½% for the first five years and 4% thereafter. The present issue is a 4½%. The remaining \$300,000 of the new issue would be available for a period of three years for improvements. Company also, it was learned, plans to call on Oct 1, at par,

present outstanding \$421,000 of second mortgage bonds. Funds for this

would come from company's treasury. This is the final payoff of the \$3,200,000 of bonds issued in 1934.

The refinancing plan will make possible payments on preferred stock of \$4 annually, and it is understood the company will make it cumulatively payable beginning Oct. 1.

The refinancing also will remove restrictions on possible payment of common stock dividends, although there is nothing definite as to when they will be paid. Payments would depend upon earnings.

Arrangements have been made to sell the new bond issue to insurance companies.—V. 168, p. 2799.

Operating revenues for June, 1947, were \$510,848, an increase of 5.64% over the prior month and 16.27% over June, 1946. The increase over last year resulted primarily from increases of 9.05% in the number of passengers carried and 10.8% in passenger miles, coupled with generally higher research for the passenger miles,

Coupled with generally higher passenger fares.

A drop in the passenger load factor from 75.64% in June, 1946, to 61.19% in June, 1947, is attributed to an increase of over 40% in miles operated, lack of time necessary for extensive development of traffic on the Tulsa-Houston route, and a recent unseasonable general decline in passenger business.—V. 166, p. 160.

Young Opposes Plan-

Security holders eligible to vote on the plan for the reorganization of the company were urged Aug. 6 by Robert R, Young, Chairman of the Alleghany Corp., and the Chesapeake & Ohio Ry., to reject the plan. The ballots have been mailed out by the Interstate Commerce Commission and must be returned not later than Sept. 19.

In a letter to these security holders, Mr. Young said that a new plan of reorganization had been prepared and that it would be presented as soon as the present plan has been rejected. He said that the Alleghany Corp. was voting the bonds it owns in the Missouri Pacific System against the plan. Time Extension Asked—

The company told the ICC Aug. 4 that the Commission's general recommendations of last June for additional safety devices on the nation's railroads would cost Missouri Pacific and its subsidiaries ap-

New York New Haven & Hartford RR .- Reorganiza-

tion Plan to Be Dated July 1, 1947—
Federal Judge Carroll C. Hincks on Aug. 4 signed an order fixing July 1, 1947, as the date to which claims against the New Haven shall be computed for capitalization in the securities to be issued under the road's reorganization plan. The previous date had been July 1,

1943.
The order authorizes payment of \$9,424,379 to three principal groups of creditors, but stipulates that the manner of disbursements to secured bondholders shall be determined by a consummation order to be

issued later in the proceedings.

The order allows cash disbursements of \$7,907,731 to holders of first and refunding mortgage bonds of the New Haven road; \$604,000 to holders of Boston & New York Airline first mortgage bonds; and

to holders of Boston & New York Airline first mortgage bonds; and \$912,648 to holders of Old Colony first mortgage bonds. Payment of interest for the first six months of 1947 to Old Colony first mortgage bondholders also is provided for in the order. Edwin S. Sunderland, counsel for the reorganization committee, presented the petition, and explained no direct order for payment was asked at the present time.

Curtiss K. Thompson, counsel for unsecured creditors of the road, objected to the distribution of cash instead of securities. He also said unsecured creditors would benefit by the court's holding to the original-date of July 1, 1943.

William Mulcahy, counsel for the Boston & Providence RR, asked that a statement he entered in the record providing that the Boston & Providence be given treatment similar to that given to the three other creditors.

other creditors.

Judge Hincks remarked that "the matter of reorganization is complicated enough now. I have no desire to see it further complicated and beset with difficulties."

It was finally agreed that the reorganization committee would file on Sept. 1 the terms to be given the Boston & Providence. If nothing is filed by that time, counsel for the Boston & Providence may ask the court for a statement concerning such terms.-V. 166, p. 470.

North American Light & Power Co.-Liquidation Plan

Delayed-

Federal Judge Paul Leahy has reserved decision on the plan for liquidation of the company. He took this action following objections to the plan voiced by Percival E. Jackson, counsel for William D. Dana and other Light & Power common stockholders.

Under the terms of the plan preferred stockholders are to receive liquidation price of 100 plus accrued dividends, and common stock is to receive three-tenths share of Illinois Power Co. common for each share held. Common shareholders would have the alternative of taking \$7.50 a share cash in lieu of the Illinois Power common.

The three-tenths share of the latter stock is offered to meet objections of the SEC which had held the \$7.50 cash payment to be insufficient.

The Jackson-Dana group protested that the SEC failed to determine the validity of claims of North American Co., parent of North American Light, as a Light & Power security holder.

Asks Permission to Acquire More Shares of Subsidiary

The company has asked the SEC for permission to acquire 355,250 shares of the common stock of Northern Natural Gas Co., a subsidiary, if the latter splits its common stock two shares for one.

As the owner of 355,250 shares of Northern Natural's common, Light and Power would receive an additional 355,250 shares in the split-up, which the subsidiary proposes to effectuate by reducing the par value of the security from \$20 to \$10 a share, providing the plan is sanctioned at a special stockholders' meeting on Aug. 20.—V. 165,

Thermoid Co.-Common Stock Offered-Blyth & Co., Inc. and associates publicly offered Aug. 1 a new issue of 50,000 shares of common stock (\$1 par) at \$11.50 per share.

PURCHASE OF ASBESTOS MANUFACTURING CO.—For the purpose of acquiring control of Asbestos Manufacturing Co. by Thermoid Co., 111,626 shares of the common stock will be offered by Thermoid to stockholders of Ameo in exchange, on the basis of two shares of Thermoid common stock for one share of Ameo cumulative convertible preference stock and one share of Thermoid common stock for four shares of Ameo common stock. The proposed acquisition of control of Ameo by Thermoid has been submitted to the U. S. Department of Justice for consideration and pending the outcome of such submission no such exchange offer will be made.

Transfer agent, Guaranty Trust Co. of New York; Registrar, Commercial National Bank & Trust Co. of New York.

PURPOSE The net proceeds of these shares are to be applied as

follows:

(a) Thermoid intends to apply the net proceeds thereof to the extent of \$225,000 to the purchase, from Amco, at \$2.50 per share, of 90,000 shares of Asbestos Manufacturing Co. common stock. If such agreement cannot be carried out for any reason, the net proceeds from the sale of these shares will be used for general corporate purposes.

(b) The balance of net proceeds received by Thermoid will be added to its working capital and be available for further advances to Thermoid Western Co. in connection with the construction of its new plant in Utah.

STATEMENT OF THE BOARD OF DIRECTORS OF ASBESTOS MANUFACTURING CO.—In connection with the exchange offer, the board of directors of Amco has furnished Thermoid with the following statement:

statement:

"Under date of Feb. 8, 1947, the directors of Amco proposed to increase the authorized comon stock from 400,000 shares to 600,000 shares in contemplation of an offer of additional common stock to its stockohlders for subscription. It was stated that the corporation was in an unfavorable competitive position and required additional capital for plant improvement and expansion whereby costs could be reduced to restore a favorable condition. This amendment was effected and an offering of 111,590 shares was made to the stockholders at \$2.50 per share which, if accepted, would have produced \$278,975 of additional capital. However, only 23,772 shares were subscribed for and only \$59,430 of additional capital was obtained.

"Market conditions at the time and subsequent thereto were unfavorable for a public offering of securities and the directors believed that obtaining necessary capital by such method was impracticable. It was the belief of the board that the interests of the stockholders would be best served by an affiliation of Amco with another company engaged in a similar business provided that the stockholders of Amco were afforded an oppertunity to participate in the affiliated company by a merger, exchange of stock or some other means on a fair basis. Consequently, and to obtain funds needed, the board approved the sale common stock to Thermoid which, with other stock acquired by it.

Consequently, and to obtain funds needed, the board approved the sale at a price of \$2.50 per share of 75,000 shares of the unsubscribed common stock to Thermoid which, with other stock acquired by it, now owns 102,948 shares, which is approximately 23% of the outstanding common stock, and 650 shares, which is approximately 4% of the outstanding cumulative convertible preference stock of Amco. Consideration was given to a proposal that Amco be merged into Thermoid. "A recent survey made by Thermoid and Amco indicates that the program of plant expansion and expansion of replacement sales originally contemplated by the board should, for the efficient and profitable operation of the business, be considerably enlarged. Such further expenditures, it is estimated, would require a minimum of \$225,000 of capital in addition to the amounts received as stated above.

"The board of directors of Amco, as a practical means of obtaining the required additional capital, has accepted a proposal of Thermoid to supply such additional capital, has accepted a proposal of Thermoid to supply such additional capital, by the further purchase of 90,000 shares of Amco common stock at a price of \$2.50 per share, in connection with which Thermoid proposes to make an exchange offer of its common stock for the stock of Amco with the intention of acquiring at least voting control of Amco through such purchase and exchange, and, if such voting control is not acquired thereby, of purchasing additionally from Amco at \$2.50 per share such shares as may be necessary to obtain such voting control. If the authorized capitalization of Amco is not sufficient to permit the issuance of all of such additional shares, it will be necessary to amend the charter of Amco to provide therefor, and the board of directors will, in that case, recommend to the stockholders the adoption of such amendment.

"Acceptance of the exchange offer is entirely voluntary on the part of the stockholders of Amco. The basis of the exchange offer, however, has been a subject of

shareholdings amounted to an aggregate of 1,108 shares of common stock on June 30, 1947.

"If the exchange offer were accepted by all of the stockholders of Amco, from their standpoint, the result would be substantially the same as though Amco had been merged into Thermoid except that acceptance of the exchange offer, in the opinion of counsel of Amco, will involve a recognition of capital gains or losses, whereas a merger transaction would not involve such recognition."

FRIDAY - WEEKLY - YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature. Figures after decimal point represent one or more 32d of a point.

United Corp. (Del.) - Judge Refuses Injunction to . Prevent Corporation Change to Investment Company-

Federal Judge Vincent L. Leibell denied Aug. 1 a motion by Randolph Phillips, a stockholder, for a preliminary injunction to restrain directors of the corporation from taking any steps to transform the utility holding company into an investment company in accordance with a resoultion adopted by stockholders on April 30.

At the same time Judge Leibell denied a motion by the corporation to dismiss a complaint by Mr. Phillips charging that the solicitation of proxies by company officials for the last annual meeting had violated the rule of the SEC prohibiting excessive corporate expenditures for this purpose.

The court said that the ends of justice would best be served by a trial to determine whether the SEC rule had been violated and added that the validity of the election of directors on April 30 was a matter for the SEC to decide.

Judge Leibell ruled also that it was within the jurisdiction of the SEC to decide whether passage of the resolution transforming the corporation into an investment business was valid.—V. 166, pp. 310 and 509.

Florida (State of)
Bond Market Comment — In a bulletin dated July 20, A. B. Morrison & Co., of Miami, commented as follows:

"Prices of Florida bonds have softened somewhat in the last 30 days, the tendency being particularly noticeable in some of the dollar bonds. There is not much activity in any issues and certainly there are not very many bonds showing in the secondary market. No new issues of any size have been offered for sale recently.

"At this time of year counties, school districts and most cities are putting the finishing touches on their budgets preparatory to setting tax levies for the fiscal year. In practically every instance budgets have had to be upped as regards operating costs because of increased cost of supplies, machinery and particularly labor. In many cases assessed valuations have been raised materially and in some cases drastically. A typical example of the last named is Miami Beach which for years kept its assessed valuations far below actual value. However, Miami Beach found itself in the same position as many other municipalities with plenty of taxing power for bond issues, but with increasing operating expenses paid entirely by non-exempt property. By practically doubling assessed valuations it has broadened the tax base for operating because the raise in valuations forced some property, heretofore exempt by the Homestead Act, to pay at least a portion of the operating expense. This same thing has taken place in many communities.

"Strange as it may seem, many cities are harder and harder pressed for operating money as their population increases. This is because low priced houses being erected are wholly or largely, because of homestead exemption, free of any operating taxes. Every time one of these houses goes up the city must provide various services, fire protection, police, garbage collection and the like, so that the increase in population

average citizen doesn't get as subscribed for by investors. Unmuch benefit from homestead exemption as he imagines. He gets \$5,000 exemption, true, but in most cases he pays a garbage tax, sales tax on cigarettes and tobacco, and other commodities and whenever he or his family go down town they pay something for the use of a parking meter. If there were no tax exemption a tax for operation would be on a larger assessed valuation with a corresponding decrease in millage, and none of these nuisance taxes. is a further fact that most cities have had to cut down on some of the services formerly furnished simply because there is no money to pay for them."

an asset. As a matter of fact, the if at least 80% of the total is less extended by mutual consent, the agreement will expire on September 12, if by that time the banking group has not received orders for 80% of the total.

Sale of the bonds will mark an important step in the program of unification of Chicago's local transportation facilities under municipal ownership. The prop-erties involved are Chicago Surface Lines and Chicago Rapid Transit System.

Proceeds from the sale of the bonds will be applied as follows: \$75,000,000 as the purchase price of the Surface Lines' properties; \$12,162,500 to purchase properties of the Rapid Transit System; \$3,000,000 for cash working funds; approximately \$13,000,000 for modernization of the lines, and an undetermined amount for adjustments to be paid to the trustees of both companies upon consummation of the purchases.

The Authority has adopted a comprehensive program for modernizing the system to be acquired. The program, scheduled for completion in 1955, contemplates the expenditure of \$152,-374,300, of which \$77,624,300 is applicable to the Surface Lines and \$74,750,000 to the Rapid Transit System.

Chicago Transit Authority was created by an Act of the General Assembly of the State of Illinois, approved April 2, 1945, "for the purpose of acquiring, constructing, owning, operating and maintaining for public services a transportation system in the metropolitan area of Cook County.' The Act was adopted by the City of Chicago at an election held on June 4, 1945. The governing and administrative body of the Authority is the Chicago Transit Board which consists of seven members, three appointed by the Governor of Illinois and four by the Mayor of Chicago.

The Authority estimates that its net revenue available for debt service will increase progressively over the next ten years, from an estimated \$17,734,682 in 1948 to an estimated \$25,089,932 for 1957.

The serial bonds will mature in lots of \$1,000,000 to \$3,000,000 per annum from 1953 to 1972, and the term bonds will be retired by the operation of a sinking fund, starting in 1958, in amounts ranging upward from \$1,149,200. It is estimated by the Authority that the entire issue will be retired in less than 21 years.
